

TEA TREE OIL

• For Skin

BENEFITS & SAFETY TIPS

Fights acne bacteria as effectively as a commonly prescribed anti-bacterial agent, benzoyl peroxide.

Produces **less side effects** than traditional acne treatments.

Rejuvenates the skin by penetrating into the lower layers of skin and promoting tissue formation.

With its powerful natural soothing properties, Tea tree oil can **relieve sunburns**.

Being a **powerful anti-septic**, TTO can effectively heal cuts, burns, scratches, & bites.

Many people are allergic to Tea Tree Oil. So, do a **patch test** first before using it.

Use it in moderation. Excessive use of Tea Tree Oil can bring **allergic reactions**.

Although its rare, TTO can increase **sun sensitivity**. Try to be indoors after using it.

Tea Tree Oil is toxic. Never ingest it. Can also be very harmful to cats and dogs.

It has a **strong smell** that not liked by all. It's good to check if you're OK with it.
